## **Building Relationships & Resolving Disputes in Surrogacy Arrangements**

Navigating your relationships with each other in such a personal space can be complex. A highly experienced surrogacy counsellor provides some examples of curve-balls and how they might be resolved to avoid further problems

**Mission Statement**

We aim to provide support and information to people interested in or undergoing fertility treatment either within the UK or abroad.

To regulate and standardise specialist fertility counsellor training and accreditation and provide training and support to them and other generalist frontline staff within the fertility field.
